Professional Summary

Full Stack Developer specializing in scalable backend systems, REST API development, and product architecture. Experienced in building secure, end-to-end web applications with expertise in authentication, database design, performance optimization, and responsive frontend development.

Technical Skills

Backend: Node.js, Express.js, REST APIs, Authentication, Role-Based Access Control

Database: MongoDB, Mongoose, Schema Design, Data Modeling

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap CSS

Deployment: Render, Vercel

Languages: JavaScript (ES6+)

Concepts: MVC Architecture, Authentication & Authorization, API Security, Error Handling, Validation, Performance Optimization

Tools: Git, GitHub, Postman, Cloudinary, Resend, Cloudflare Turnstile

Experience

- **Software Engineer — Apollo Infoways Private Limited, Noida** May 2026 – Present
 - Developed end-to-end full-stack applications, covering requirement analysis, solution design, frontend and backend development, database implementation, integrations, and testing
 - Designed scalable system architecture, database schemas, and backend workflows
 - Engineered secure REST APIs, authentication systems, and role-based access controls
 - Developed responsive React interfaces focused on usability, performance, and clean user experience
 - Optimized application performance, debugging processes, and end-to-end testing
- **UI/UX Designer — Rein Games Private Limited** Jul 2024 – Dec 2024
 - Designed UI flows, product screens, and ad creatives based on user requirements
 - Collaborated with developers to ensure accurate design implementation and user experience consistency

Projects

- **CRM Helpdesk Platform (In Progress)**
 - Built role-based CRM system for Superadmins, Admins, Engineers, and Clients
 - Designed scalable architecture, database schema, and production workflows
 - Implemented JWT authentication, OTP verification, and protected routes
 - Developed product lifecycle management, inventory mapping, and bulk upload features
 - Built end-to-end ticketing workflows with tracking, logs, and assignment history
- **Video Sharing Platform Backend**
 - Developed scalable REST APIs for video upload, management, and media handling
 - Implemented modular MVC architecture with pagination, filtering, and centralized error handling

Education

- **Amity University, Noida** 2026 – 2028
 - Pursuing **Master of Computer Applications (MCA)** with Specialization in **Software Engineering**
